

# Monster

Wednesday 13

Swing from the gallows  
It's been my destiny  
And everywhere that I roam  
I spread this blasphemy  
Now I'm, a bad, bad, man  
My name you should not speak  
I prey on the innocent  
The powerless and weak

You, made me a monster  
And all I wanna do is dismember you  
Made me a monster  
And now the monster's coming after you  
Made this creation  
Causing all this devastation  
You, made me a monster  
And now the monster, he's out on the loose

On the loose  
I am a madman on the streets  
Now don't ever forget  
That you created me  
Now look, into my eyes  
And take your final breath  
My hands, around your throat  
Just one more last caress  
It's because...

You, made me a monster  
And all I wanna do is dismember you  
Made me a monster  
And now the monster's coming after you  
Made this creation  
Causing all this devastation  
You, made me a monster  
And now the monster, he's out on the loose

You, made me a monster  
And all I wanna do is dismember you  
Made me a monster  
And now the monster's coming after you  
Made this creation  
Causing all this devastation  
You, made me a monster  
And now the monster, he's out on the loose
