

# Necrophaze

Wednesday 13

Entering the necrophaze  
We take the other form  
Exhuming bodies from the grave  
To feast upon the worms  
Decomposition's my addiction  
This I must confess  
Coffins full of rotting flesh  
Grotesque by request  
Graves and tombs  
Death in full bloom  
Consuming the decayed  
Enter the mouth of madness  
Enter the necrophaze

Enter the necrophaze  
There's no mercy for you  
Rest in piece, but not for long  
This nightmare's coming true

I am the night  
The terror, the fright  
I'm the necro-shadow  
Reanimate  
The dead, watch them wake  
In darkness all is hallowed

Darkness alive, no one survives  
Necrophaze (necrophaze)  
Death and dismay, kill for joy, kill for days  
Necrophaze (necrophaze)  
Your soul be thine, see the dead, watch them rise  
Necrophaze (necrophaze)  
Evil descends, as the night closes in  
Necrophaze (necrophaze)

(Decomposition's)  
My addiction, as I embrace your death  
I'm morgue than meets the eye  
So grotesque now I request

I am the night  
The terror, the fright  
I'm the necro-shadow  
Reanimate  
The dead, watch them wake  
In darkness all is hallowed

(Necrophaze  
Necrophaze)

Darkness alive, no one survives

Death and dismay, kill for joy, kill for days  
Necrophaze (necrophaze)  
Your soul be thine, see the dead, watch them rise  
Necrophaze (necrophaze)  
Evil descends, as the night closes in
