

# Welcome To The Strange

Wednesday 13

Nowhere

No place I'd rather be

I'm my own sideshow

I can feel the misery

I lived my whole damn life in color

My future's so black and white

I got a nonstop ticket

No destination in sight

So step right up for the ride of your life

The line starts here in the back of your mind

I ride into the super sci-fi

My stars are fallin'

Down down down

To the Earth tonight

So step right up for the ride of your life

The line starts here in the back of your mind

Well you can rearrange the strange and deranged

And the sign up ahead says "Welcome to the strange!"

Welcome to the strange

So step right up for the ride of your life

The line starts here in the back of your mind

Nowhere

No place I'd rather be

Well I'm a self-made monster

And my own worst enemy

So step right up for the ride of your life

The line starts here in the back of your mind

Well you can rearrange the strange and deranged

And the sign up ahead says "Welcome to the strange!"

Welcome to the strange
