

## Dandruff

Wednesday

Sometimes I'll simply ask you to leave  
Then I will start to feel so guilty  
Maybe I misunderstood their need  
They just want to be alone with me

Are you there with another girl instead of me?  
Forget your jealousy  
Save me from this purgatory  
2001 or 2 or 3  
Leave a daisy and walk away

This is the year I met myself  
This is the year I met myself  
This is the year I met myself

I am so lucky  
And my feelings are so heavy  
I don't need love consistently  
I don't need love to be happy
