

Take Me Away

Ween

Take me away to some other land (thank you)
I gotta get away from that girl before I go crazy
She took my love away
She took it to another man
Now I gotta get away from that girl
Before I go crazy

Take me away to some other land (thank you)
I gotta get away from that girl before I go crazy
She took my love away
She took it to another man
Now I gotta get away from that girl
Before I go crazy

Take me, take me away

Gotta get away
Crazy
She took my love away
Now I gotta get away, oh
Take me away to some other land (thank you)
I gotta get away from that girl before I go crazy
She took my love away
She took it to another man
Now I gotta get away from that girl
Before I go crazy
