

## The World Is Far Away

## Weeping Willows

At last we're having peace  
Our lives are .. possibilities ....  
It's all set in stone  
At last we're having peace  
Our lives are .. possibilities ....  
It's all set in stone  
I always knew for you to make you strong  
When nights are cold we are in love

The world is far away and gone to sleep  
We're where we are because of where we've been ...  
The love and song...

We live for all these things  
And realize that things will always change...  
While life keeps cheating on  
My love will be... forever gone...

The world is far away and gone to sleep  
We're where we are because of where we've been ...  
The love and song...  
The world is far away and gone to sleep  
We're where we are because of where we've been ...  
The love and song...
