

# 10 Smack Commandments

Weerd Science

Yo, you like to get high, young'un? Alright, alright, listen man. We call this the "10 Smack Commandments." This is a guideline for you to live by if you want to live that life. Good luck to you. Check it out-

(One) Never trust anyone even if its your best friend  
Because any head will rob you if it means another hit for them  
You got to go on every run because the first second you're not there  
You get \_\_\_, the junkie's work is never done

(Two) As far as time goes, every day will be spent  
Trying to fix up with crackheads and whinos  
These are your people now, this is who you roll with  
People that knew you back in the day see you and go "oh shit!"

(Three) Don't sweat it, you've got bigger problems  
Like where's the good dope and how you're gonna get it  
You can expect to get ripped off at least once  
Shit, even OGs occasionally get taken advantage of

(Four) This is the nature of the business, and nature's brutal  
As far as this goes, its' business as usual  
A lot of dealers are users too  
And they won't lift a f\*cking finger up to try and help you  
They say to write about what you know about  
And I only know about a couple things  
This is a guideline for young'uns to live by  
If they like the street life and they like getting high

(Five) Most of your friends will disown you  
After the third time you fail to pay back money they loaned you  
There's only so many times you could say that was the old you  
And swear to god you've changed and promise there's drugs you don't do

(Six) This is an easy one to dismiss  
Never get fronted from your main dealer even if you're sick  
If your main dealer gets pissed and you owe him bread  
He'll hold it over your head and hold out when you need a fix

(Seven) Try not to get high and f\*ck  
Actually, for the first year its great, but after that you can't get it up  
And if you can get it up, you probably won't nut  
You f\*cked the skin off of your dick til you're left with a bloody stump

(Eight) So if you must, always use a rubber with a junkie chick  
Do I need to explain why needles and male dicks  
Make for a bad mix, you'll be making so many trips  
You'll be on a first name basis at the free clinics  
They say to write about what you know about  
And I only know about a couple things  
This is a guideline for young'uns to live by  
If they like the street life and they like getting high

(Nine) Always test new product before taking a normal hit  
Cuz if you somehow think it's impure, uh oh, that's it  
That's why most addicts at some point stop  
Because they make like P. Diddy, they cannot stop

(Ten) Number ten is the easiest of them all  
If you want to live the good life, not succumb to the fall  
If it all sounds hard, you can escape the appall  
Don't do heroin you f\*cking asshole
