

1 More Hit

Weezer

It's do or die
And I'm burning up inside
I know that something really isn't right
I shake, I sweat
I'm writhing in the bed
For just a puff, just a little spike

Pump it up into me
Please daddy, please daddy
Pump it up, pump it up
Into me

Could I have one more hit?
I promise I'll quit
This shit ain't good for me
I really need one more hit
And I'll be good
You really shouldn't go cold turkey
Cold turkey

The kiss, the bliss
There's nothing quite like this
To see your soul is shining like a pearl
To feel deep down
You matter to the world
And not just to a boy or to a girl

Pump it up into me
Please daddy, please daddy
Pump it up, pump it up
Into me

Could I have one more hit?
I promise I'll quit
This shit ain't good for me
I really need one more hit
And I'll be good
You really shouldn't go cold turkey
Cold turkey

A kick, a punch, a bell-ringer
A clip, a chop, a real zinger
You're the bee, give me the stinger

Could I have one more hit?
I promise I'll quit
This shit ain't good for me
I really need one more hit
And I'll be good
You really shouldn't go cold turkey
Cold turkey
Cold turkey
