

Burning Sun

Weezer

I died for you
Why can't you be the one
To set my mind at ease

I tried for you
But now the burning sun
Is setting on the sea

Ain't nothin' we can do
I gave my strength to you
But if my dream came true I'd hold you every night

I'd fall you
And get down on my knees
If that would make you smile

Ain't nothin' we can do
I gave my strength to you
But if my dream came true I'd hold you every night

Ain't nothin' we can do
I gave my strength to you
But if my dream came true I'd hold you every night

I'd fall you
And get down on my knees
If that would make you smile
If that would make you smile
If that would make you smile
