

Freak Me Out

Weezer

ity streets at night
can be so intimidating
I'm not the toughest guy
I gotta keep my eyes open
You came out of no where

Man, you really freak me out
I'm so afraid of you
and when I lose my cool
I don't know what to do
I know you don't mean no harm
You're just doin' your thing
but man you really freak me out

Did I hurt you?
Are you okay?
Can I buy you a drink?
Ahhh, what's the world coming to?
You came out of no where

Man, you really freak me out
I'm so afraid of you
and when I lose my cool
I don't know what to do
I know you don't mean no harm
You're just doin' your thing
But man, you really freak me out

I'm gonna try to improve my manners
Everyone, yes, everyone is my friend!

City streets at night (City streets at night)
City streets at night (City streets at night)
'Till the morning light ('Till the morning light)
City streets at night (City streets at night)

Man you really freak me out
I'm so afraid of you
and when I lose my cool
I don't know what to do
I know you don't mean no harm
You're just doin' your thing
But man, you really freaked me out.
