

I Do

Weezer

All the times you came
I should've ran away

You told me that you'd always love me
You told me that you'd always love me

And the games you played
Were meant to lead me on

You told me that you'd always love me
You told me that you'd always love me
Always, oooh always
I do

You told me that you'd always love me
You told me that you'd always love me
Always, oooh always
I do

Never more again
Will I believe the sun
