

# Jacked Up

Weezer

If I stay the night  
Will we fall in love?  
If I stroke your hair  
It's gonna hurt so much  
Stranded in the Kalahari  
Will you share your flask?  
If I stay the night  
Will we fall in love?

I'm all jacked up  
Over you  
I'd bury diamonds  
Just for you  
Oh, why, why, why do my flowers always die?  
Why do they die?  
I'm all jacked up  
Over you

I see you standing there  
Without a shred of clothes  
And I can break away  
From the vein of gold  
Come you beautiful alien  
Touch me with your light  
But if I stay the night  
Will we fall in love?

I'm all jacked up  
Over you  
I'd bury diamonds  
Just for you  
Oh, why, why, why do my flowers always die?  
Why do they die?  
I'm all jacked up  
Over you

You're the sun that I'm orbiting  
I burn in your heat  
Supernova and cosmic dust  
You spawn galaxies  
We'll sleep together  
Sleep together  
Sleep forever  
Sleep together  
Sleep forever minus one  
Say those forbidden words to me, evil girl

I'm all jacked up  
Over you  
I'd bury diamonds  
Just for you  
Oh, why, why, why do my flowers always die?  
Why do they die?  
I'm all jacked up  
Over you
