

# Love Explosion

Weezer

take a listen  
around you  
all the people  
that crowd  
around  
in your house,  
they've been  
wanting  
to kill you  
in your sleep

take a load off  
and bow down  
to the others  
who love to call  
you their names  
they've been  
wanting  
to kill you  
in your sleep

and all the bull  
that people sling  
it doesn't matter  
what they sing

so jump out,  
jump out, get  
your groove on  
this one is for you  
so come on,  
get out  
yer house, girl,  
and give me  
a kiss

take a load off  
and bow down  
to the others  
who love to call  
you their names  
they love to call  
you their names  
they love to call  
you their names
