

Mo' Beats

Weezer

I got mo' beats than ya'll
Keep fishin' still seems small
Is that the best that all of you can do?
Now to my challengers
Still think with little words
You're so upset, you're pissing on yourself

Wombat with the little teeth
You've been declawed with a violent fee
Trying to think of something sharp
To say to me to pierce my heart

A mob is rising up
They want to scream and shout
And tear your body limb from limb real slow
You got to focus now
Reconcentrate the chi
And get them monkeys off your back for good

Bait me, and you think I'll fall
For the words you've written up on the wall
Another performance on the ringside
And I'm not about to let the pain outside

Bait me, and you think I'll fall
For the words you've written up on the wall
Another performance on the ringside
And I'm not about to let the pain outside

Wombat with the little teeth
You've been declawed with a violent fee
Trying to think of something sharp
To say to me to pierce my heart

A mob is rising up
They want to scream and shout
And tear your body limb from limb real slow
You got to focus now
Reconcentrate the chi
And get them monkeys off your back for good

You've got to focus now...
Yeah...
