

# Superfriend

Weezer

What the hell am I doing, thinking with my willy? Knowing I don't love her, I tell her no, then kiss her toes

What the heck are you doing leading on that poor girl? I know there's something better, deep in you. Now let it through

Pain, pain go away

Go away

Come again another day

Another day

'Cause I've got a friend tonight

Tonight

A superfriend to

Make things right

Turn away from weakness, turn to something better. Show me how to live right. I never noticed you, now I worship you

Don't be talking silly. Save deceits for the young girls. You can talk for real to me. Close your eyes and leave the lies

Pain, pain go away. Come again another day. I got a friend tonight, a superfriend to make things right
