

# You Gave Your Love to Me Softly

Weezer

You gave your love to me softly  
I heard your heart beating true  
Still your Bijon lingers on and on and on  
You gave your love to me softly

When I'm feeling blue and lonely  
All I have to do is think of you  
We had just one night but it lingers on and on and on  
You gave your love to me softly

La la la you sang to me  
Baby don't you cry  
Put your arms around me child  
And lay with me tonight

You gave your love to me softly

La la la you sang to me  
Baby don't you cry  
Put your arms around me child  
And lay with me tonight

La la la  
La la la  
La la la la la la la
