

Toothless People

"Weird Al" Yankovic

They only show you their gums when they smile
Aint got a tooth in their heads now how vile
Only can eat things like pudding and applesauce
They never have to buy toothpicks or dental floss
Hey, stand up
Toothless people, the breath is lethal
Wanna tell ya
Hey, (come on), stand up, (get on your feet)
Toothless people, old and feeble
What I say
No more of those pearly whites will they posses
Their oral hygiene is frightful a mess
Lots of 'em suffering from trench mouth and gum disease
At least they don't have to worry 'bout cavities
Hey, stand up, (take out your teeth)
Toothless people, old and feeble
Oh yes
You can brush 'em. You can floss 'em
They're something you just can't ignore
If you lose
