

Love Is Not A Weapon

Welshly Arms

We've been up all night
Trying to get this right
Maybe we should burn it down
Wanna see what we're made of
See what we're made of

You've been talking that shit
And I'm over it
Am I losing my grip
What am I afraid of
Don't know what I'm afraid of

Hold on for a second
Don't go and wreck it
Love is not a weapon
Love is not a weapon

Is it really over
Is it really over
Is it really over now

I don't wanna be a soldier
But there's some things you fight for
And I won't ever let you down

Think I lost my mind
But I kept on tryin'
I guess I'll never know how
To keep it together
Gotta keep it together

We're just a little too late
Yeah, it's just too late
I guess I'll go throw up my hands and surrender
Yeah, I will surrender

Hold on for a second
Don't go and wreck it
Love is not a weapon
Love is not a weapon

Is it really over
Is it really over
Is it really over now

I don't wanna be a soldier
But there's somethings you fight for
And I won't ever let you down

We both got carried away
Lots a small talk left nothin' to say
All these wars fought in vain
You can't even say my name

Is it really over
Is it really over
Is it really over now

I don't wanna be a soldier
But there's somethings you fight for
And I won't ever let you
No I won't ever let you down

No I won't ever let you
No I won't ever let you down
