

Never Meant to Be

Welshly Arms

Draw back your shades
Don't miss-behave
Open up now
Breathe it in
How's it do ya?

So hard to see
They put a name on me
Make it dirty
Wash it clean
Must be perfect in between

Never meant to be that way
Never meant to be
Never meant to be that way

Play every game
They're all the same
Cast the die
Count the dots
Here it comes now

Head in my hands
My circumstance
Got a lonesome older soul
Told my heart that it's losing control

Never meant to be that way
Never meant to be
Never meant to be that way
Never meant to be

So unafraid
Got a mind that's made
So so gentle, but kinda rough
Never ever get enough

Never meant to be that way
Never meant to be
Never meant to be that way
