

# Stand

Welshly Arms

Fine line between caged and free  
Same blood between you and me  
Everybody gotta rise up  
Everybody gotta stand up

Shout from the steeple  
Power to the people  
Ain't nobody free  
Til everyone of us is equal  
Everybody gotta rise up  
Everybody gotta stand up

Feed us lies  
But we'll find truth  
They'll cut us down  
But can't take our roots  
I believe that we'll get through  
Just stand by me  
And I'll stand by you

This is where we come from  
This is what we do  
Yeah we got that same blood  
So just stand by me and I'll stand by you

Looking back at those six broke kids  
Who'd a thought we'd have a stage like this  
But here we are because we rise up  
Yeah we're here because we stood up

And we shout from the steeple  
Power to the people  
Ain't nobody free  
Til everyone of us is equal  
Everybody gotta rise up  
Everybody gotta stand up

Feed us lies  
But we'll find truth  
They'll cut us down  
But can't take our roots  
I believe that we'll get through  
Just stand by me  
And I'll stand by you

This is where we come from  
This is what we do  
Yeah we got that same blood  
So just stand by me and I'll stand by you

This is where we come from  
Oh, this is what we do  
Yeah we got that same blood  
So just stand by me and I'll stand by you

There's a war outside these walls  
But there's love inside us all

Yeah there's a war outside these walls  
But there's love inside us all

'Cause this is where we come from  
And this is what we do  
Yeah we got that same blood  
So just stand by me and I'll stand by you

This is where we come from  
Oh, this is what we do  
Yeah we got that same blood  
So just stand by me and I'll stand by you

I'll stand by you  
I'll stand by you
