

# World Is Watching

Welshly Arms

It's like the whole world  
Is watching you  
Is watching you  
It's like the whole world  
Is watching you

Oh child, oh child  
Life sometimes it can get so rough  
It might seem like you'll never get back up  
Well get back up and dust your knees off  
Oh child, I know child  
Might feel like you just can't keep up  
Roll the dice, it just ain't your luck  
And it might suck but you get back up

Don't you let  
Anyone hold you back  
You got to keep going  
Oh I know it

Feels like the whole world is watching you  
Watching you  
It's like the whole world is watching you  
Watching you fall down  
And get back up again  
Fall down  
And get back up again

Oh child, oh child  
The bigger they are, the farther the reach  
The closer you get, the harder it seems  
When there's big hopes, big dreams

I know there's strength in the comeback  
If you never trip, you'll never get back up  
It ain't over  
You're only getting closer

Don't you let  
Anyone hold you back  
You got to keep going  
Oh I know it

Feels like the whole world is watching you  
Watching you  
It's like the whole world is watching you  
Watching you fall down  
And get back up again  
Fall down  
And get back up again

Get back up again  
Get back up again  
Get back up again

Feels like the whole world  
Is watching you

Watching you
