

Animus

Wendy Rule

On a ritual night you returned to me
Through the Eastern doorway of eternity
Like the one I was
Like the one I would be
From the world without
And the world within me

I took your hand and I followed you down there

In a dream last night,
In your eyes of sorrow
You had held my gaze till I chose to follow
To the world without
And the world within me
To the world I'd lost
Where I knew my soul would be

I took your hand and I followed you down there
Oh, I'm still searching for something I found there
