

# Chapter You

Wendy

Ha-aa-aa  
Ooh-woah-woah-oh  
Ha-aa

Even if I tried to not think of you  
You're wandering through my head  
It's the way that I want it  
Stay for another day (Day) and night (And night)  
All over the moon  
When I look at you, I'm gazing at the stars  
And no matter what you do, you make me levitate (Tate)  
It's crazy

Lost in the moment, trying to focus  
I just want this feeling to last (Feeling to last)  
So move in closer

I know you know you're meant for me (Meant for me)  
Marked in my heart like poetry (Poetry)  
I'm writing a script for two  
Something for me and you  
A story that's made for movie screens (Movie screens)  
And you'll have the lead in every scene (Every scene)  
I'm writing a script for two  
It's starting at chapter, starting at chapter you  
Chapter you  
Chapter you  
I'm starting at chapter, starting at chapter you

(Ha-aa) Whenever we touch, I feel the force of gravity  
And I fall into heaven, slowly but endlessly  
And now I'm (And now I'm)

Lost in the moment, trying to focus  
I just want this feeling to last (Feeling to last)  
So move in closer

I know you know you're meant for me (Meant for me)  
Marked in my heart like poetry (Poetry)  
I'm writing a script for two  
Something for me and you (Something for me and you)  
A story that's made for movie screens (Movie screens)  
And you'll have the lead in every scene (Every scene)  
I'm writing a script for two (Woah-oh-oh-oh)
