

Written In The Stars

Wendy

Seems like we've been here before
Your eyes are seeing straight right through my core
It's kinda strange, but I like it
Ain't no reason tryna' fight it, yeah

Might be déjà vu
First time we met, but I remembered you
We were creepin' in the night time
Maybe in another lifetime

Don't tell me you don't feel what I feel right now
It's written all over you
Don't tell me you don't feel what I feel somehow
I keep findin' my way back to you

You can go anywhere babe wherever you want
Because I know we're written in the stars
You can go any which way don't matter how far
Because I know we're written in the stars

No question that we're written in the stars

The moment... you looked at me
I started losing feeling in my cheeks
Felt myself moving towards ya'
I just wanted to get closer, oh!

When you say hello
I know there is no limit where we'll go
I want you to be ready
I'll hold your heart if you'll let me, oh

Don't tell me you don't feel what I feel right now
It's written all over you
Don't tell me you don't feel what I feel somehow
I keep findin' my way back to you

You can go anywhere babe wherever you want (Oh I want)
Because I know we're written in the stars
You can go any which way don't matter how far
Because I know we're written in the stars

No question that we're written in the stars (Oh ever)

And I promise every day (I promise every day)
To make you feel this way (To make you feel this way)
So that you know it's written in the stars

Nowhere
Written in the stars

Oh, we're written in the stars
