

# Do It Better

Wengie

(Ross keep makin' hits)

No hesitation, that's my reputation  
I'm the good kind of dangerous  
Take a bad boy, shape him up, yeah  
This situation's, oh-so entertaining  
'Cause I know he not in love (And he know)  
And she don't measure up (No)

Stuck in his head  
He know I fuck him better tonight  
What if I said I want to, baby?  
It ain't healthy  
But you should come and taste what you like  
Promise I'm worth the wait  
He know I'm better, by the way

I do it better, I do it better  
Make you forget her  
Anything she can do  
I can do better  
Don't need forever, it's you and me together  
Make you forget her  
Anything she can do  
I can do better

Bitches gonna try, but they can't compete  
I be put together, I be so complete  
These grown men cry for me  
And change up their whole life for me, yeah  
You can call me sugar but the shit ain't sweet  
I can be a drug, baby, come OD  
Know you're tempted, baby, come get what you like  
'Cause

I do it better, I do it better  
Make you forget her  
Anything she can do  
I can do better  
Don't need forever, it's you and me together  
Make you forget her  
Anything she can do  
I can do better

Better, better (Better, better)  
Better, better (Better, better, do it better)  
Anything she can do  
I can do better  
Better, better (Better, better)  
Better, better (Better, better)  
Anything she can do  
I can do better

Stuck in his head  
He know I fuck him better tonight  
What if I said I want to, baby?  
It ain't healthy

But you should come and taste what you like  
Promise I'm worth the wait  
He know I'm better, by the way

I do it better, I do it better  
Make you forget her  
Anything she can do  
I can do better  
Don't need forever, it's you and me together  
Make you forget her  
Anything she can do  
I can do better

Better, better  
Better, better (Do it better)  
Anything she can do  
I can do better  
Better, better  
Better, better  
Anything she can do  
I can do better
