

What's good, you just my type  
I'm bad, that's what you like  
You crazy, you toxic  
But baby, so am I  
Tattoos all on your chest  
Those scars when you undress  
You like the pain, you like the way  
I kiss you on your neck

You tell me I can't hurt you  
Your heart got nothing left  
But I see the way you look at me  
Pretending it's just sex  
You crazy, you toxic  
But baby, so am I  
You crazy, you toxic

I'm a motherfucking star  
Only see me when it's dark  
I'm a motherfucking star  
Black hole in my heart (Don't fall in love)  
(Don't fall in love)

Don't fall in love  
Don't fall in love  
Don't fall in love

We can fake it for the night  
We don't have to think about it  
Keep it locked in my mind  
With these feelings to the side  
Keep pretending you don't miss me, baby  
It's just a lie

You tell me I can't hurt you  
Your heart got nothing left  
But I see the way you look at me  
Pretending it's just sex  
You crazy, you toxic  
But baby, so am I  
You crazy, you toxic

I'm a motherfucking star  
Only see me when it's dark  
I'm a motherfucking star  
Black hole in my heart (Don't fall in love)  
(Don't fall in love)

Don't fall in love  
Don't fall in love  
Don't fall in love  
Don't fall in love
