

Cut these ties  
It's hard to say goodbye  
I've tried, to tell you that I'm sorry  
I apologize

Right now life sucks  
You're falling out of love, and I'm still stuck on us  
I let you get the best of me  
I'm wide awake while you rest in peace, it's messed up

I'm doomed, stuck inside this room  
Remember when you left that night  
This bed felt like a tomb  
I'm doomed, killed myself for you  
The flowers that I got you died  
But at least you're still in bloom

Cross my mind  
In the middle of the night  
Won't lie, when I saw you at that party  
I was paralyzed

Right now life sucks  
You're falling out of love, and I'm still stuck on us  
I let you get the best of me  
I'm wide awake while you rest in peace, it's messed up

I'm doomed, stuck inside this room  
Remember when you left that night  
This bed felt like a tomb  
I'm doomed, killed myself for you  
The flowers that I got you died  
But at least you're still in bloom

Seems like you were always mine to lose  
There's a hole inside my heart the shape of you  
Seems like you were always mine to lose  
I'll never find another you, I guess I'm doomed
