

# DREAMS

WesGhost

Been a while, really hope that you're happy  
Tell your friends that I'm fine when they ask me  
Feeling like it's been a year since last week  
Bet you didn't think you'd ever cut me that deep  
But I feel you in my lungs like nicotine  
Now I'm taking double shots of the caffeine  
All the memories that turn into a bad dream  
When you left me in this bedroom, took the last piece, R.I.P

I hated when you left that night  
Still waiting, tryna turn back time  
Heartbreaking 'till I close my eyes

I always fall for you in my dreams  
3 days without you, I can't sleep  
It's cold and lonely in these sheets  
I hope you wake up next to me  
I always fall for you in my dreams

Yuh, I get nervous every time I lay my head down  
I'm still overthinking every word you said now  
Started moving on but sometimes I forget how  
To be alone without somebody in my bed now

I hated when you left that night  
Still waiting, tryna turn back time  
Heartbreaking 'till I close my eyes

I always fall for you in my dreams  
3 days without you, I can't sleep  
It's cold and lonely in these sheets  
I hope you wake up next to me  
I always fall for you in my dreams

3 days without you, I can't sleep  
I hope you wake up next to me

I always fall for you in my dreams  
3 days without you, I can't sleep  
It's cold and lonely in these sheets  
I hope you wake up next to me  
I always fall for you in my dreams  
3 days without you, I can't sleep  
I hope you wake up next to me
