

FACELESS

WesGhost

Everytime I come I come to my senses
You leave me defenseless
I'm faceless still can't face it
Dark times dark nights I shape shift
Everytime I come I come to my senses
My thoughts are relentless
I'm faceless still can't face it
Can't face it

Touch my soul
Throw me away when you're done
Touch my soul
Throw me away when you're done

Kiss me one more time
Before you take my life
Before you take my life

Kiss me one more time
Before you take my life
Before you take my life

Everytime I come I come to my senses
You leave me defenseless
I'm faceless still can't face it
Dark times dark nights I shape shift
Everytime I come I come to my senses
My thoughts are relentless
I'm faceless still can't face it
Can't face it

Touch my soul
Throw me away when you're done
Touch my soul
Throw me away when you're done

Kiss me one more time
Before you take my life
Before you take my life

Kiss me one more time
Before you take my life
Before you take my life

Touch my soul
Throw me away when you're done
Touch my soul
Throw me away when you're done

Kiss me one more time
Before you take my life
Before you take my life

Kiss me one more time
Before you take my life
Before you take my life
