

FEVER

WesGhost

When you close your eyes
Don't close your eyes
You're terrified you won't wake up
Can't get out of bed, out of your head
The tears made a mess of your make-up

Now your heart is racing
You're so anxious, spiraling alone
The bed you lay in suddenly feels cold

It's just a fever dream
Can we go back to sleep?
Your eyes say everything
Darling, it's okay to cry
It's just a fever dream
Can we go back to sleep?
Escape reality
Darling, stay with me tonight

When you close your eyes
Don't close your eyes
You're terrified you won't wake up
Can't get out of bed, out of your head
The tears made a mess of your make up

Still running from the past
The days you can't get back
Still smiling when you're sad
But it never lasts

It's just a fever dream
Can we go back to sleep?
Your eyes say everything
Darling, it's okay to cry
It's just a fever dream
Can we go back to sleep?
Escape reality
Darling, stay with me tonight

Yeah, I know it's been a hard night
I can taste your tears on the tip of my tongue
Hiding from the daylight
Outta your mind when you're stuck inside

Don't close your eyes
Don't close your eyes
Don't close your eyes
Won't wake up
Can't get out of bed, out of your head
You're terrified you won't wake up

Tears made a mess of your make-up
'Cause you're terrified you won't wake up

It's just a fever dream
Can we go back to sleep?
Escape reality

Darling, stay with me tonight
