

Just another drop in the ocean
Just another ghost that they can't see
Wondering if anybody noticed
It's pretty obvious to me
Woah, I wanna run run run, wanna run run run before the storm s
wallows me
Just another drop in the ocean
I'm underwater tryna breathe

Just another drop in the ocean
Just another, just another drop in the ocean
Feeling like just another drop in the ocean
Just another, just another drop in the ocean
And I'm underwater tryna breathe

Safe to say we're on the same boat
Holding on, just tryna stay afloat
Message in a bottle with nowhere to go
It's an S.O.S., yeah
All my life
Tryna make a difference, tryna change the times

Everybody's dying, just to make you feel alive, yeah

Just another drop in the ocean
Just another ghost that they can't see
Wondering if anybody noticed
It's pretty obvious to me
Woah, I wanna run run run, wanna run run run before the storm s
wallows me
Just another drop in the ocean
I'm underwater tryna breathe

Just another drop in the ocean
Just another, just another drop in the ocean
Feeling like just another drop in the ocean
Just another, just another drop in the ocean

And I'm underwater tryna breathe
