

## RUINED

WesGhost

Break me down and take what you want  
Break me to pieces, I'm already gone  
Suffer in silence, pain consumes  
I'm so dreadful, but I still need you  
I still need you

So far away  
So far away

If I can't have you, no one can  
You were just the drug I'm using  
Losing half of who I am  
Take my bitter heart, it's useless  
Comatose, I'm barely breathing  
Body covered up in bruises  
Take my life inside your hands  
Without you here with me, I'm ruined

You took a part of me I can't replace  
Chained to the memory, watching us fade  
Rotting in front of you, I'm such a waste  
Why don't you stay?

So far away  
So far away

If I can't have you, no one can  
You were just the drug I'm using  
Losing half of who I am  
Take my bitter heart, it's useless  
Comatose, I'm barely breathing  
Body covered up in bruises  
Take my life inside your hands  
Without you here with me, I'm ruined

I'm ruined  
Without you here with me, I'm ruined
