

Alive

Westlife

Not everyone will
Understand you
Not everyone will
Make you laugh like I do
Not everyone will
Know just how you're feeling
But everyone is
Not everything that you're needing

Cause I know about the trees that you climbed and
Your mother does too
I know you're sad about leaving behind all
Your friends from school

But
The world will come alive and
It's dancing to your beat
The world will come alive, yeah
It's moving with your feet
And when you see the dark and rain
The world will dance again
The world will dance again

Not everyone will
Be in your life forever
But everyone's not everything when
You've got something better

Cause I know about the trees that you climbed and
Your mother does too
I know you're sad about leaving behind all
Your friends from school

But
The world will come alive, yeah
It's dancing to your beat
The world will come alive, yeah
It's moving with your feet
And when you see the dark and rain
The world will dance again
The world will dance again

Yes, and
The world will come alive and
It's dancing to your beat
The world will come alive and
It's moving with your feet
And when you see the dark and rain
The world will dance again
Oh yeah, will dance again

I'll come alive
Yes I am
I'll come alive
The world will dance again
