

Dance

Westlife

Every little thing that we want to be
I know we're never, ever gonna, gonna be
For sure, we've tried before
But every single time that I look at you
I'm always gonna kinda wanna break the rules
Can't tell, you how I feel

Let's all come round
I shut my mouth
Let's not talk now

So maybe we can dance
Dance until the clock says it's tomorrow
Maybe we can lie
Lie because the truth is hard to swallow
Hard to swallow

Tomorrow we get back to reality
Where you and I are nothing more than history
Ancient, yeah, way back when
Everything you said was gold
Light me up
Leave me cold
Know we let each other down
Would you light me up?
You never know

So maybe we can dance
Dance until the clock says it's tomorrow
Maybe we can lie
Lie because the truth is hard to swallow
Hard to swallow
Every little thing that we wanna be
I know we're never, ever gonna, gonna be
For sure, we've tried before
So maybe we'll just dance
Dance until the clock says it's tomorrow

I don't know where you go
But I know I'm trying to follow
I don't know where we'll go
But I know we've got tomorrow

So maybe we can dance
Dance until the clock says it's tomorrow
Maybe we can lie
Lie because the truth is hard to swallow
Hard to swallow
Every little thing that we want to be
I know we're never, ever gonna, gonna be
For sure, we've tried before
So maybe we'll just dance
Dance until the clock says it's tomorrow
