## I Don't Wanna Fight

I can't sleep everything I ever knew is a lie without you I can't breathe when my heart is broke in two there's no beat, without you You're not gone, but you're not here At least that's the way it seems tonight If we could try to end these wars I know that we can make it right Cause baby... R: I don't wanna fight no more I forgot what we were fighting for and this loneliness that's in my heart wont let me be apart from you I don't want to have to try Girl to live without you in my life so I'm hoping we can start tonight cause I don't wanna fight NO MORE... How can I live When everything that I adore And everything I'm living for Girl it's in you I can't dream Sleepless nights have got me bad The only dream I ever had Is being with you I know that we can make it right It's gonna take a little time Lets not leave ourselves with no way out Lets not cross that line R: I don't wanna fight no more... Remember that I made a vow that I would never let you go I mean it then I mean it now and I want to tell you so R: I don't wanna fight no more... (2x) it's a lie without you Without you
