

# I Will Reach You

Westlife

[Mark:]

Everybody's got an answer to a question they need to know  
"Still broken on the one thing didn't ask you do you have to go  
?"

Now I'm looking for a reason, it isn't easy but I gotta have hope

Sometimes it can be harder to remember that you just let go  
Always seems to be something to remind me what I miss the most  
"Was you all the one thing I believed in when it all falls down  
."

[All:]

So if you got a candle you better light it now  
And if you gotta voice you better shout out loud  
Raise your hands above the sky and I will reach you  
Can you hear me can you hear me now?

[Shane:]

Even though I can't see you I can feel you after all this time  
So baby if you're hurting all I'm asking for is just one sign  
Cause I never met anyone who was lost but didn't wanna be found  
.

So if you got a candle you better light it now  
And if you gotta voice you better shout out loud  
Raise your hands above the sky and I will reach you  
Can you hear me can you hear me? I will reach you,  
Can you hear me can you hear me now?

Light it up (I will reach you)  
Shout out loud (I will reach you)  
Raise your hands above the sky

[Chorus]
