

# Starlight

Westlife

Could it be, could it be the start of something?  
Maybe our, maybe our lucks about to  
Turn around, around a little  
'Cause right now we're caught in the middle

Could it be, could it be the start of hoping?  
Maybe now, maybe now the doors are opening  
To a place that we've never been  
Seeing things that we've never seen

So many times I turned away  
But something held me back that day  
And all I want to say is I hope you're here to stay

Starlight  
Lighting up the darkest night  
Something I can see in your eyes  
Keeps me alive tonight, oh, oh-oh  
We can all be starlights  
Racing at the speed of light  
I found you in my darkest time  
Now look how we shine so bright, whoah

Maybe now this is our time for lovin'  
You're the one, you're the one who made me smile  
All over again and again now I'm singing  
You saved me, this is a new beginning

So many times I turned away  
But something held me back that day  
And all I want to say is I hope you're here to stay

Starlight  
Lighting up the darkest night  
Something I can see in your eyes  
Keeps me alive tonight, oh, oh-oh  
We can all be starlights  
Racing at the speed of light  
I found you in my darkest time  
Now look how we shine so bright, whoah

Dancing at the speed of light  
You know you are my starlight  
Dancing at the speed of light  
You know you are my starlight

I was in my darkest place  
And then I saw your face  
Lately all I wanna say is I hope you're here to stay

Starlight  
Lighting up the darkest night  
Something I can see in your eyes  
Keeps me alive tonight, oh, oh-oh  
We can all be starlights  
Racing at the speed of light  
I found you in my darkest time

Now look how we shine so bright, whoah

We can all be starlights
