

Wild Dreams

Westlife

Yeah I've been livin' it up
Without a rhythm or rhyme
I got 'ya out of my life
But never out of my mind
'Cause I've been picturing you
When you're looking so fine
You put a spell on my heart
You got the way that it smiles

No matter how I try
When I close my eyes
You keep haunting,
Haunting me through the night
No matter how I try
Got nowhere to hide
When I close my eyes

'Cause I've been living wild wild wild
Wild wild wild, wild dreams
'Cause I've been living wild wild wild
Wild wild wild, wild dreams
And I la la like it
And I la la like it

No I don't wanna wake up
Scared of what I would see
No I don't want it to stop
'Cause you're not here with me
Sooo
I can't wait 'til you disturb my sleep
Get out of my head
Crawl into my bed

No matter how I try
When I close my eyes
You keep haunting,
Haunting me through the night
No matter how I try
Got nowhere to hide
When I close my eyes

'Cause I've been living wild wild wild
Wild wild wild, wild dreams
'Cause I've been living wild wild wild
Wild wild wild, wild dreams
And I la la like it
And I la la like it
