

11 Hours

Wet

I've been walking a familiar line
Painted fingers and wasted time for you
And I've been thinking in double time
It's subtle, but I give it up 'cause it's you
And I've been watching you taking your time
It's more trouble than it's worth but it's you

You leave me no choice
I'll wait 11 hours
Up all night, you took my power
You, you

I've been working overtime
I push my body across the line for you
And I would do it any time you want
Come around and smile the way you do

You leave me no choice
I'll wait 11 hours
Up all night, you took my power
You, you

Now I've been talking in double time
You make me nervous, that's why I act like I do
And when you're not here there's a familiar face
Someone's come to take your place, but it's you

You leave me no choice
I'll wait 11 hours
Up all night, you took my power
You
You leave me no choice
I'll wait 11 hours
Up all night, you took my power
You, you
