

# Almost

Wet

Loving you Is almost worth the pain  
On the truth, I almost lost my head again  
Loving you is almost worth the ache  
On the truth I almost lost my head again

Even when you call my name  
Even when you call me out  
Could it ever be the same?  
Maybe with the lights turned down

Even when you call my name  
Even when you call me out  
Could it ever be the same?  
Maybe with the lights turned down  
(Maybe with the lights turned down)  
(Maybe with the lights turned down)  
(Maybe with the lights turned down)  
(Maybe with the lights turned down)
