

Double

Wet

Some days some days
Aren't good endings at all
Some things some things
Don't prepare you to fall
In some ways some ways
I could always let go
Away away away away
Oh just for a little bit
Oh just for a little bit
No not this time

This time this time I'll be I'll be alright
This time this time this time
I'll be alright alright
This time this time I'll be I'll be alright
This time this time this time
I'll be I'll be alright

Some days some days
I know I dropped the ball
I pray I pray a way out of it all
In Some ways some ways
I could always let go
You wait you wait you wait you wait
Oh just for a little bit just for a little bit
Oh not this time

This time this time I'll be I'll be alright
This time this time this time
I'll be alright alright
This time this time I'll be I'll be alright
This time this time this time
I'll be I'll be alright

Oh think of the joy of the first time
From the ground up
Feet on the ground of a future love
Took my time it was for a reason
Line after line I can't believe in
Love after love I kept on wastin'
This time

This time this time I'll be I'll be alright
This time this time this time
I'll be alright alright
This time this time I'll be I'll be alright
This time this time this time
I'll be I'll be alright
