

Far Cry

Wet

If I was just stronger and if you were just older
We could last this out longer, but the task just got harder
Even the weather couldn't keep it together
Wanna know that you're always alright

Call my name, call me out
Call my name, call me out

Even if you call my name
Baby, could it be the same?
Even when you call me out
It's a far cry from what we found out

Even when you call my name
Could ever it be the same?
Even when you call me out
It's the brightest light always burns out

Always forever, I'll relive your effort
You could've told me to stop
And I should've told you but you wouldn't listen
Now we're just left here to pick up the pieces

Even when you call me out
Even when you call my name
Even with the lights turned down
We're a far cry from what we found out

Even when you call my name
Baby, could it be the same?
Even when you call me out
The brightest light always burns out

Call my name, call me out
Call my name, call me out

Always forever, I'll relive your effort
You could've told me to stop
And I should've told you but you wouldn't listen
Now we're just left here to pick up the pieces

Always forever, I'll relive your effort
You could've told me to stop
And I should've told you but you wouldn't listen
Now we're just left here to pick up the pieces

Always forever, I'll relive your effort
You could've told me to stop
And I should've told you but you wouldn't listen
Now we're just left here to pick up the pieces

Always forever, I'll relive your effort
You could've told me to stop
And I should've told you but you wouldn't listen
Now we're just left here to pick up the pieces

It must be you

No one else let me down with one look
It must be you
No one else let me down with one look
