

## Float

Wet

I swim out as far as I can  
Make myself into an island  
Some things float some things land  
I think I feel myself sinking again

I fall down until I can stand  
He'll come around it's not in my hands  
I'm coming home to a house made of sand

I think I feel myself sinking again

I just wanna float, float  
Love you like I don't anymore, more  
Throw my body out on the floor, floor  
Sometimes I find it hard to just forgive and forget  
And just let  
I just wanna float, float  
Leave the baggage out at the door, door  
Love you like it's what we're here for, for  
If only I could make myself forgive and forget  
And just let

If I shout from every mountain  
All the doubt I've felt at your hands  
Just to be thrown by the sight of a lamb

I think I feel myself sinking again

I just wanna float, float  
Love you like I don't anymore, more  
Throw my body out on the floor, floor  
Sometimes I find it hard to just forgive and forget  
And just let  
I just wanna float, float  
Leave the baggage out at the door, door  
Love you like it's what we're here for, for  
If only I could make myself forgive and forget  
And just let

I just wanna float, float  
Leave the baggage out at the door, door  
Love you like it's what we're here for, for  
If only I could make myself forgive and forget  
And just let
