

# My Everything

Wet

I've been trying to hide it  
'Cause I don't wanna let you down  
And I don't get excited the way I do when I'm with you  
And now there's too much riding on it  
It's starting to get away

The moon illuminates the way to take you home  
The more I fake the more I need to be just where you are  
There you are

You're my everything bigger than the stars  
When I look inside there you are  
You're my everything when you go away  
Even for a minute that's too far

You're my everything bigger than the stars  
What a thing to be where you are  
And you made me see from the very start  
Nowhere I'd rather be than in your arms

And I still have the sight of you  
Ducking me against the trees  
And the way that you lighted up the way I do  
In the pouring rain

And the hours were flying out  
Over you and me in a fantasy

Your love illuminates the way to take you home  
The more I wait to try I realize I'm thinking too hard  
Then there you are

You're my everything bigger than the stars  
When I look inside there you are  
You're my everything when you go away  
Even for a minute that's too far

You're my everything bigger than the stars  
What a thing to be where you are  
And you made me see from the very start  
Nowhere I'd rather be than in your arms

And when you turned turned to me  
I knew how good this could be  
There you go
