

No Time

Wet

Try sleeping in your own bed
I know it's hard but you deserve it and
How else will you know your worth it
And all the ways that he was working you
Try sleeping on your own now
If you don't try you'll never know how
And of all the ways that it could go down
But you won't know until you see
And all that's just too much for me

Cause I've had no time to get myself right
And I've had no time to get myself right
And I've had no time to get myself right

Try sleeping in your own bed
I know you won't but you to deserve it
How else will you know what the world is
Of all the ways that he was working you
Try thinking on your own now
You must be tired of all the run around
And of someone trying to get inside of you
But you won't know until you try
And I would rather just keep on lying

Cause I've had no time to get myself right
And I've had no time to get myself right
And I've had no time to get myself right
And I've had no time to get myself right
