

Signs

Wet

Broke down on the side of the road
I found out what you didn't want me to know
Father's always doing me wrong
Silent secrets leech in the road

If you wanna stay I can make it better
If you wanna lay down I can touch you everywhere
If you wanna go I will not forget you
If you wanna take the road much higher

We saw signs from the moment we turned on the highway

We fell down in the same mistakes
I found out what I can't replace
We got caught in the same mistakes
I found out what I can't replace
We fell down in the same mistakes
I found out what I can't replace
We fell down in the same mistakes
I found out what I can't replace

Father's always doing me wrong
Mother's drunk laid out on the lawn
Silent secrets deep in the road
Memory that you can't seem to let go

We saw signs from the moment we turned on the highway

And I found out in a place I never would've thought
I found love let the rain wash me off
And I found out in a place I never would've thought
I found love despite the way you set me up
I found god in a place I never would've thought
And I found love let the rain wash me head to toe
I found out
Let it wash me off

Out on my own nights so cold
Out on my own days so long
Out on my own nights so cold
How I would've known you were only

A mirage that I saw that night on the road when it got too cold
And I still see you there when I think of all that you owe

And I found out in a place I never would've thought
I found love let the rain wash me off
And I found out in a place I never would've thought
I found love despite the way you set me up
I found god in a place I never would've thought
And I found love let the rain wash me head to toe
I found out
Let it wash me off
I found out
Let it wash me off
