

## Trust No Man

Wet

In the end you're gonna need somebody  
Better try before you lose that body  
Keep your eyes out on the open road  
Uh huh honey

It's getting harder just to trust somebody  
And even harder when you've got no money  
Keep my eyes out on the open road  
Uh huh honey

Run far, run as fast as you can  
Don't forget don't trust no man  
Run far, run as fast as you can  
Don't forget don't trust no man

Yeah in the end you're gonna need somebody  
You better try before you lose somebody  
My heart that day was like a sinking stone  
Uh huh honey

I saw you standing there just skin and bones  
You held me up cause I can't hold my own  
In the end you're gonna need somebody  
Till then honey

Run far, run as fast as you can  
Don't forget don't trust no man  
Run far, run as fast as you can  
Don't forget don't trust no man

Well I've tried and I will try again  
But I know this time it's not in my hands  
In my hands

In the end you're gonna need somebody  
Better try before you lose that body  
Never listen when they say go slow  
My heart that day was like a sinking stone

Better run when you get that money  
Hold it close, never let go honey  
I'll keep my eyes set on the open road  
Uh huh honey
