

DJ Party (Monster)

wewantwraiths

Ohh, na na
Woah

I put pain in music and I lose it and abuse it
To show you how I'm feeling, hate this feeling that I'm feeling
Deep into the silence, in the night with no more guidance
My heart keep on bleeding and you the reason I don't need no
Let's run off all night, let's do tonight, hide from our problems
And when you're all alone and got nobody, know I got you
How you break my heart and broke your heart, oh, you a monster
Saved yourself, I shoulda' known, you'd end up being a runner

I'm spending way more on you now
I didn't mean to be this lit
I love the way your body moving
When you in the latest drip
Not just your body, it's your mind
I love the way you know your shit
I'm making you want me
Who else gon' buy you all this drip
Spend money like I don't like that stuff
Yeah they didn't know me when my life was tough
Outside in the night, all night and rough
My heart broke twice, don't feel no love
You by my side, is all I want
All I do you right, won't do no wrong
I'll choose you twice, cus' you're the one
For me, for hoes, don't need them

I put pain in music and I lose it and abuse it
To show you how I'm feeling, hate this feeling that I'm feeling
Deep into the silence, in the night with no more guidance
My heart keep on bleeding and you the reason I don't need no
Let's run off all night, let's do tonight, hide from our problems
And when you're all alone and got nobody, know I got you
How you break my heart and broke your heart, oh, you a monster
Saved yourself, I shoulda' known, you'd end up being a runner

I see my blue light Cartier
Always getting mad, cus' I'm hardly there
No stick, then you won't see me party there
See the wraith all black but the car seats red
And the car key red, and we still speed there
And it's cold outside, so the car heated
Yeah we dodge blue lights and avoiding feds
But the stars gleaming in this brand new wraith

I put pain in music and I lose it and abuse it
To show you how I'm feeling, hate this feeling that I'm feeling
Deep into the silence, in the night with no more guidance
My heart keep on bleeding and you the reason I don't need no
Let's run off all night, let's do tonight, hide from our problems
And when you're all alone and got nobody, know I got you
How you break my heart and broke your heart, oh, you a monster
Saved yourself, I shoulda' known, you'd end up being a runner

Let's run off all night, let's do tonight, hide from our problems

And when you're all alone and got nobody, know I got you
How you break my heart and broke your heart, oh, you a monster
Saved yourself, I shoulda' known, you'd end up being a runner
