To feel the raindrop  
Second time pullin' us over, it's the same cop  
I fell in love with makin' songs and gettin' paper

I put the top down on the dawn to feel the raindrops  
Second time pullin' us over, it's the same cops  
I fell in love with makin' songs and gettin' paper  
10K followers, but still treat you like you famous  
When you lonely, call my phone and I'ma save you  
Day-dates forty for the time, this ain't no date, just  
I been racing hundred miles in this Bentayga  
You know I like it when you smile without no makeup  
Girl, you're crazy

You wanna fly out with your girls to go Jamaica  
Before you say I made you mine, just know I made you  
I won't even check the tag, I'll check it later  
I spent six figures on my music, still I feel like it ain't enough  
How you tellin' on people? Really thought you was a thug  
If you a hater or an opp, I'll see you later  
We want Wraiths and Cullinans, we want Bentaygas  
This stick preach like its a pastor, Bolognese all on the streets  
Leave the curb looking spaghetti like its all that you can eat  
I spent two quids on this jacket and like fourteen on my feet  
So even if my drip ain't even matching, least you know that it ain't  
cheap  
Bouncers check me when I walk in  
This baby boy will turn your cradle to a casket  
It's either alley-oops or dunk it in the basket  
Everything I got I get without no asking  
Let's see who gets it fastest and who's pack is the largest  
If it ain't me then it's probably on my dargs hit  
I'm tryna stack it to the top I'm tryna passport  
But I can fly a private jet without no passport

I put the top down on the dawn to feel the raindrops  
Second time pullin' us over, it's the same cops  
I fell in love with makin' songs and gettin' paper
