Made a loaf from all these breadcrumbs
Things I had to do 'cuz no one's breaking bread
Bro take a left I seen a undercover fed car
Don't let them see you buss the corner take the red
The obbos real, they watch our movements through the desktop

Everybody gangsta til a gangsta turns up dead
Too many frees and RIPs has got my head hot
Brodie take the lead and load the hammer up with led
Shoulda got deceased but got off lucky with a leg shot

You wanna know the quickest way to get famous?
Fuck with my set we'll leave your ass on the papers
The rumour is I've been blasting pagans
Broad day light shooting man out their trainers

Never wanted to be famous just rich
Never wanted shanks just sticks
Get the drop and roll up, 2 whips, pop out like who's this?
Headshot I shoot wigs, Booter Bee the shoe fits

Never slipped once and didn't spin back (double barrel)
Guarantee I shoot and push your wig back (kick back)
6 shot stuffed in this gym bag (spin back)
Pop the door, jump out and rip dat

The 38s in the compartment
Told bro don't be complacent
Can't see through all this darkness
Ain't no light unless you scrape it

You can label me an artist
Independent with no label
I can tell you where it started
But I can't show you my face

I'm from where you use your heart less
If you ever wanna make it
Shoot my shot I'll hit my target
Never wanted to be famous

I'm making money off this music like I'm Zaythoven
Got a facial when she said she needs a make over
I've been patient most my life I think the wait's over
Me and Booter Bee about to drop a tape over
It's a take over, then it's game over (oooo)
